

TOWN OF WINCHESTER ■ MASSACHUSETTS

Community Electricity Aggregation Program

Dear Basic Service Customer,

March 30, 2021

The town of Winchester approved a Community Electricity Aggregation program, WinPower, authorizing our community to aggregate the electricity load (usage) of those residents and businesses that are on Basic Service with NSTAR Electric Company (Eversource). The goals of the Program are to provide you with competitive choice, longer-term price stability and more renewable energy options, however, future savings cannot be guaranteed because future Basic Service rates are not known.

You will be automatically enrolled in the WinPower Community Electricity Aggregation program unless you choose not to participate (opt out).

YOU MUST MAIL AND POSTMARK YOUR OPT-OUT CARD ON OR BEFORE MAY 3, 2021 TO AVOID AUTOMATIC ENROLLMENT IN THE AGGREGATION PROGRAM.

After a competitive bid process, Dynegy was selected as our Electricity Supplier for a contract starting on the January 2020 meter reading through the January 2022 meter reading. If you do not opt out of the Program, your participation will start on your May electricity meter reading. A comparison of the rates for the aggregation program and current rates for Eversource Basic Service are shown below.

Large Commercial and Industrial rates change January 1, April 1, July 1 & October 1 .
CONSUMER ACTION NEEDED 	No action required; automatic enrollment.	Call new supplier to select this option. See page 2.	Call new supplier to select this option. See page 2.	To opt out of the Program and remain with current service, mail the enclosed postage-paid envelope no later than MAY 3, 2021 .

Rates indicated above are for Supply Services only. Under the contract, the rate per kilowatt-hour (kWh) for electric supply will be fixed until your December 2022 meter reading. The Standard Product rate for Residential and Small Commercial and Industrial customers will remain below Eversource's Basic Service rate until Eversource Basic Service rates for Residential and Small Commercial and Industrial customers change on July 1, 2021. The Standard Product rate for Large Commercial and Industrial customers is not below Eversource's current Basic Service Large Commercial and Industrial rate. Program prices could increase as the result of a change in law that results in a direct material increase in costs during the term of the electric supply agreement.

There is no guarantee of savings. The primary intent of the Program is to provide you with competitive choice and longer-term price stability over the duration of the 35-month term. However, future savings cannot be guaranteed because Eversource Basic Service rates change every six months for Residential and Small Commercial customers and every three months for Large Commercial and Industrial customers. Thus, Eversource's Basic Service rates may be above or below the Program rate during any subsequent period.

AGGREGATION FEE for all Winchester programs is included in the above rates. This fee is \$0.001/kWh for the aggregation consultant. The town of Winchester does NOT receive any fees from the Program.
